STUDENTS' AMBLESIDE CONFERENCE.

Next spring should see the Students assembling again at Ambleside, by Miss Mason's kind permission, to confer together on their joint work.

It is always desirable to appoint a committee, who will arrange the daily programmes and be responsible for the details.

It was therefore proposed to hold a meeting at the York Rooms on December 1st, to elect a committee, at 3-30. A large gathering of Students was especially asked for; and will those who were unable to be present kindly send any votes for especial names or suggestions as to papers, &c., to the Editor as soon as possible?

The following suggestions have been already received:—

- (1) How to use Albot's Bible Lessons.
- (2) Modelled maps as a help in geographical teaching,
- (3) Brushwork as per P.R.S. Programmes, *i.e.*, How to obtain satisfactory original illustrations.
- (4) The principles which govern the marking of drawings and paintings sent up for examinations.
- (5) The Management of Parents' Union Schools and Large Classes.
- (6) The need of awakening public opinion in favour of the larger curriculum.
